## DESIGN ACTIVITIES ARE ON SCHEDULE

The Redwood Road Project Team has been working on finalizing design details and acquiring right-of-way for the section of Redwood Road between 10400 South in South Jordan to 12600 South in Riverton for roadway widening and reconstruction. Completion of the design and right-of-way acquisitions will allow for construction to begin in 2006.

## STAYING INVOLVED

Throughout the design process, the design team has continued working with the public in a variety of ways, including:

- Meetings with staff from each community
- One-on-one meetings with property owners
- Project hotline
- Website
- Online comment form

A new stakeholder committee has been formulated from members of the public action committee and other interested residents and business people within the project area between 10400 South and 12600 South. This committee met for the first time on September 21st. The public is invited to review the latest design and construction information at an Open House on November 10th. For further information about this project, call the Project Hotline at (801) 597-2464 or visit the project website [www.udot.utah.gov/redwood104to126](http://www.udot.utah.gov/redwood104to126)

## DESIGN OPEN HOUSE

**Thursday**

**November 10<sup>th</sup>**

**at Riverton High  
School**

**(in the Tech Atrium)  
12476 South 2700 West**

**Come anytime between  
5 pm and 7 pm**

c/o Michael Baker Jr., Inc.  
6955 Union Park Center, Suite 370  
Midvale, UT 84047

## PROJECT CONTACTS

## PROJECT UPDATE

Updated design details include the following:

- Items such as cut and fills, retaining walls, irrigation, and drainage requirements have been determined.
- Signals are warranted at 10610 South and 12300 South and will be installed as part of this project.
- South Jordan plans to bury power and communication lines in developed areas and has approved sod in park strips.
- Riverton plans to bury power and communication lines throughout the project area and has approved sod in park strips.
